

MCFA Member Registration

The Missouri Canoe and Floaters Association is a not for profit organization comprised of outfitters and vendors who believe in promoting, protecting, and preserving our streams. MCFA has successfully advocated legislation to prohibit the Department of Revenue from charging sales tax on “delivery” of services and equipment and defeated legislation offered by several legislators to increase sales tax on outfitters’ equipment rentals in various counties. After a years’ long battle, legislation was just passed to push back the start of school, extending the quality floating season. We will continue to monitor legislation regarding our industry.

Your annual membership includes:
